-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 12 September 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

#### **DETAILED ACTION**

1. The Art Unit location of your application in the USPTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Art Unit 1732, Examiner Leo Tentoni.

#### ***Election/Restrictions***

2. Applicant's election of Group II, claims 9-17 in the reply filed on 12 September 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

3. Claims 1-8 and 18-25 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 12 September 2005.

#### ***Specification***

4. The disclosure is objected to because of the following informalities: On page 1, the status of the parent application should be updated.

Appropriate correction is required.

5. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Art Unit: 1732

The following title is suggested: PROCESS OF PRODUCING  
WINDABLE SPUNLAID MATERIALS.

***Claim Rejections - 35 USC § 103***

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary.

Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

8. Claims 9-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Putnam et al (Putnam I; U.S. Patent 6,903,034

Art Unit: 1732

B1) in combination with Putnam et al (Putnam II; U.S. Patent 6,321,425 B1).

Putnam I (see the entire document, in particular, col. 2, lines 25-29; col. 5, lines 8-33; col. 6, lines 47-63; col. 10, line 1 to col. 11, line 38; col. 12, lines 38-44; col. 20, line 12 to col. 23, line 52) teaches a process of making a nonwoven material as set forth in the instant claims, except that Putnam I does not explicitly teach that at least one layer is provided in the absence of prebonding (Putnam I does teach light thermal bonding), which is taught by Putnam II (see the entire document, in particular, col. 2, line 65 to col. 3, line 23; col. 4, lines 41-57) (note that Putnam II teaches light thermal bonding, also referred to as cold calendaring, in which at least one layer is provided in the absence of prebonding) and such would have been obvious to one of ordinary skill in the art at the time the invention was made in the process of Putnam I in view of Putnam II principally in order to facilitate handling of the material during formation of the nonwoven.

#### **Conclusion**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leo B. Tentoni whose telephone number is (571) 272-1209. The examiner
